Attachments: NEW Draft Aldicarb Briefing Slides 110220_Local_Copy.pptx

We can confirm that our understanding of DWLOC calculation is in line with HEDs methods and point it out to RD today. I attached a local copy the presentation that Debra Rate uploaded to the folder an hour ago in the hope that you can access it.

I had the same issue with my VPN today, rebooting my laptop seemed to have fixed it. Otherwise uninstalling and reinstalling the pulse VPN client has worked for me in the past.

Thanks for checking in. I have a conflict and can't attend this one, but Karen will also be there.

I can't connect to VPN without losing internet so I couldn't check the site, but that reads about right to me.

I think it is correct, unless removing some uses.

So I was going over the slides that Debra just posted in the folder Amy linked and I have questions about the drinking and groundwater slides in reference to the DWLOC.

Ex. 5 Deliberative Process (DP)

Subject: aldicarb new use - latest meeting

Hi,

As a follow-up to the weekly check-in meeting yesterday. **Ex. 5 Deliberative Process (DP)**
regarding how the agency is/has considered comments from the registrant and what we may need to prepare to respond to them. I inquired what they have submitted regarding drinking water or ecological effects as I recall discussions with RD regarding some items related to the drinking - incorporation depth (change from no runoff at certain depth to how we do it now) and flow velocity. Debra reminded me that they did submit something quite a while back, but we did discuss those internally somewhat. She said she would put the materials on her OneDrive (see link below – I don't see the document uploaded yet). **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

At this point, RD is going to regroup and determine what else HED/EFED will need to do (HED provided DEEM runs for SW under different scenarios but I didn't see any runs using GW yet).

Below is the link to RD's Debra Rate's OneDrive, which contains the last briefing slides and other materials
